

atlas of the biosphere

Disclaimer: The University of Wisconsin, The Center for Sustainability and the Global Environment, and the Atlas of the Biosphere make no claim as to the validity or accuracy of this data. All such claims are expressly the responsibility of the individual dataset creator(s). Effort has been made to include in the Atlas only those datasets that presumably represent the pinnacle of current knowledge in a particular field, however we will assume no accountability for any errors end users may encounter while working with the data.

Dataset Citation:

Ramankutty, N., J.A. Foley , J. Norman, and K. McSweeney. The global distribution of cultivable lands:current patterns and sensitivity to possible climate change. Submitted to Global Ecology and Biogeography, March 2001

Dataset Distributor:

The Atlas of the Biosphere: <http://atlas.sage.wisc.edu/>

Format:

ESRI ArcView Grid
